IDET 2017

14th International Defence and Security Technologies Fair

31. 5.–2. 6. 2017
Brno – Exhibition Centre
www.idet.eu

LIST OF PRODUCTS

1 Weapons and ammunition
1. 1 Missiles and rockets
1. 2 Guns, mortars and ammunition
1. 3 Rocket launchers and grenades
1. 4 Mines, obstacles and mines clearance devices
1. 5 Fire control equipment
1. 6 Small-bore weapons and ammunition, sports and hunting firearms
1. 7 Signalling and illuminating devices
1. 8 Weapons and ammunition components
1. 9 Weapons and ammunition accessories
1.99 Weapons and ammunition – other

2 Main battle tanks, vehicles and means of transport
2. 1 Main battle tanks
2. 2 Armoured vehicles
2. 3 Special vehicles
2. 4 Engineering vehicles
2. 5 Road and terrain vehicles and motorcycles
2. 6 Motor boats and hovercrafts
2. 7 Subgroups and accessories of tanks and vehicles
2. 8 Camouflage means
2.99 Main battle tanks and vehicles – other

3 Aircraft
3. 1 Airplanes
3. 2 Helicopters
3. 3 UAV
3. 4 Board control equipment
3. 5 Electric equipment of aircraft
3. 6 Aircraft equipment and armament
3. 7 Aircraft engines
3. 8 Aircraft installation
3. 9 Life saving means
3.10 Air traffic control
3.99 Aircraft technology – other

4 Command and communication systems
4. 1 Automatic systems of command and control
4. 2 Optical and electromagnetic transmitting systems
4. 3 Information gathering and detection equipment
4. 4 Systems for reconnaissance of inaccessible areas
4. 5 Topographic devices and services
4. 6 Generating sets and power supply systems, batteries and accumulators
4.99 Command and communication systems – other

5 Security technology services
5. 1 Mechanical means of security
5. 2 Electronic means of security
5. 3 Means of mobile security
5. 4 Security technology and services
5. 5 Highway police technical means
5. 6 Criminological and expert technology
5.99 Security means – other

6 Observation and marking equipment
6. 1 Night-vision equipment
6. 2 Optic aiming systems and target marking
6. 3 Hidden observation equipment
6. 4 State border defence equipment
6. 5 Security building entrances
6.99 Observation and marking equipment – other

7 Maintenance and repairs of technology, material supplies
7. 1 Means and technology for repairs
7. 2 Maintenance and diagnostics means
7. 3 Handling, supplying, packing means
7. 4 Storage means
7.99 Maintenance and repairs technology – other

8 Military and police professional training
8. 1 System of education
8. 2 Equipment supporting education and training
8. 3 Simulator devices and evaluation systems
8. 4 Training devices
8. 5 Gunnery, driving and tactical simulators
8. 6 Crisis management operation
8. 7 Training simulators
8. 8 Equipment of anti-terrorist groups
8.99 Means for military and police professional training – other

9 Personal security and protection
9. 1 Means for healthcare
9. 2 Means for providing foods
9. 3 Clothing-Textiles
9. 4 Camp accommodation
9. 5 Chemical, biological and radiological protection
9. 6 Pyrotechnical equipment
9. 7 Diving equipment
9.99 Personal security and protection – other

10 Radars and radio technical systems
10. 1 Active radiolocation
10. 2 Passive radiolocation
10. 3 Radio-technical survey and warning devices and systems
10. 4 Survey, monitoring and warning navigational systems
10. 5 Radar centres
10. 6 Jamming devices and systems
10. 7 Deceptive devices
10. 8 Antenna systems
10. 9 Radio-technical receivers and transmitters
10.10 Navigational receivers and transmitters
10.11 Components and parts of radars and radio-technical systems
10.12 Meteorological support of location and navigation systems
10.99 Radars and radio-technical systems – other

11 C4I2 systems
11. 1 Data and information recording and processing
11. 2 Communication network for data transmission
11. 3 Communication means of control and navigation
11. 4 Radio relay devices for stationary and mobile telecommunication networks
11. 5 Satellite communication
11. 6 GPS means and systems
11. 7 IT for systems of command and control
11. 8 Map interactive systems
11.99 C4I2 systems – other

12 Information security and data protection
12. 1 Information security technological means
12. 2 Information security by coding
12. 3 Means of monitoring security situation in computer networks
12. 4 Information security technological means – other
12. 5 Physical means of information's protection, EMC, PEV means, over voltage protection
12. 6 Legal and organisational aspects of information security and protection
12.99 Information security systems – other

13 Logistics and service
13. 1 HW and SW for logistics
13. 2 Repair and service centres
13. 3 Workshops, tools, technical equipment
13. 4 Metrological centres, measuring instruments
13. 5 Elements and components of electronic devices
13.99 Logistics and service – other

14 Miscellaneous
14. 1 Specialised books, publications and publishers
14. 2 Trade and intermediary activity
14. 3 State and economic institutions
14. 4 Associations and unions
14. 5 Office technology
14.99 Other
