**CZECH REPUBLIC, BRNO 21. - 23. 5. 2013**

12<sup>th</sup> International Exhibition of Defence and Security Technologies

## IDET 2013 WITH NEW DATES

### IDET AND PYROS/ISSET TOGETHER AGAIN

Last edition was held jointly with the International Fair for Fire Fighting Equipment, Security Technology and Services under the title of Integrated Rescue System Fairs and the concept is working well. *"We have responded to current trends of integration and intense cooperation of defence and security structures in time, and the interest in participating in last year's edition confirmed that we were moving in the right direction,"* said IDET and PYROS / ISET Director and member of the Board of Directors of the Association of Defence and Security Industry, **Karel Torn**. In 2013 the fairs will take place at the same time again - 21 to 23 May 2013.

### GENERAL INFORMATION

IDET as a biennial exhibition alternates with Europe's largest exhibition in this field, Eurosatory Paris, and maintains a long-term position as the largest show of defence and security technologies in the area of new NATO member states. Last year's edition was attended by 369 companies from 26 countries on three continents. The whole set of Integrated Rescue System Fairs presented 548 companies from 27 countries. The interest of visitors was also record-breaking – the fairs were viewed by 30 935 registered professionals. There was a traditionally high interest of foreign partners. Visitors came from thirty-four countries. At the invitation of the Minister of Defence, the fair was visited by 21 official military delegations from 19 countries and military and air force attachés from another 23 countries. Other VIP guests attended the expert supporting programme. The most significant event was the CATE International Conference (Community-Army-Technology-Environment), which was attended by nearly 1000 participants from Europe, but also from overseas.

The 12<sup>th</sup> International Exhibition of Defence and Security Technologies will be held from 21 to 23 May 2013. Reasons for selecting this particular time were obvious - responses from exhibitors and visitors indicated that the collision of dates with the IDEF fair was extremely unpleasant for many of them. Based on the meeting of CEOs of both trade fair administrations, it was agreed that the two fairs will not take place at the same time anymore - hence the dates 21 to 23 May 2013.

**21 to 23 May 2013**
