

### **ALFUN a.s.**

CZ – Bruntál

PAV F 004C

#### **Stainless sheets, strips, coils - corrosion resistant steels to EN 10027-2.**

##### **Application range**

Industrial branches, automotive and food-processing industries, construction.

##### **Benefit for customers**

Stainless steel service centre, wide range of products on stock, quick deliveries.

#### **Stainless steel sheets, strips, coils - flat cold rolled products, sheets, strips.**

##### **Application range**

Industrial branches, automotive and pharmaceutical industries.

##### **Benefit for customers**

Stainless steel service centre; sheets, strips and coils to the customer's requirements.

#### **Stainless steel sheets and coils cut to the customer's requirements - customized processing of corrosion resistant steels.**

##### **Application range**

Industrial branches, construction, food-processing industry.

##### **Benefit for customers**

Stainless steel service centre, stainless steel supplied in standard and non-standard sizes.

### **Bison Schweiz AG**

CH – Sursee

PAV F 009A1

#### **Bison Process - business solution geared to the steel industry.**

##### **Application range**

Are you a medium-sized company looking for business software? Then you've come to the right place. Bison offers business software specially geared to the steel industry. Your business processes are key and the Bison Process solutions can be readily adapted.

Various sector models are available to help you optimise your company processes.

##### **Benefit for customers**

User-friendly, flexible, process-oriented, integrated, upgradeable, web-enabled, scalable and functional.

### **Bison Technology - business Software Development Platform.**

#### **Application range**

Bison Technology provides a technology platform, functional modules and development environment for business software developers as well as companies that wish to develop their own software.

#### **Benefit for customers**

The development platform of Bison Technology separates company and sector-specific functions from the software technology. This way the developed solution remains "forever young".

Thanks to ongoing renewal and integration of the latest standards, the technology is always state-of-the-art.

### **Böllinghaus Steel GmbH**

DE – Hilden

PAV F 013C

### **Stainless Steel - hot rolled - flat, square, hexagon**

Stainless profiles according to international standards. With our wide assortment of warm and cold formed standard profiles we are able to cover most of the prevalent demand.

#### **Application range**

Chemical, Medical and Pharmaceutical Industries, Energy, Electrical Engineering, Mechanical Engineering, Ship Building, Construction, Aviation.

### **Stainless Steel - cold drawn - flat, square, hexagon**

Stainless profiles according to international standards. With our wide assortment of warm and cold formed standard profiles we are able to cover most of the prevalent demand.

#### **Application range**

Chemical, Medical and Pharmaceutical Industries, Energy, Electrical Engineering, Mechanical Engineering, Ship Building, Construction, Aviation.

---

### **Divisione Trading - C.S.C S.p.A.**

IT – Schio (VI)

PAV F 038C

### **Special stainless steel**

XM-19 - UNS S20910 Austenitic stainless steel.

#### **Application range**

Offshore, marine hardware, oil&gas, pulp & paper, pumps, valves, and fasteners.

### Stainless steel forgings

Round and square forging billets in Duplex UNS S31803 - Super duplex UNS S32760 and Super Duplex UNS S32750.

#### Application range

Suitable to produce flanges, discs, rings, valves, forged parts, and axles.

### Superduplex stainless steels

Super Duplex UNS S32750 - F53 - 1.4410.

#### Application range

Oil & gas, offshore, water system, chemical process, petrochemical, seawater equipment, desalination, power industry.

#### Benefit for customers

Exceptional strength, corrosion resistance, high thermal conductivity, excellent resistance to pitting and crevice.

---

### DMA Hamburg Inox & Alloys GmbH

DE – Hamburg

PAV F 035D

### Stainless steel precision strips

Stainless steel flat products.

#### Application range

Automotive industry. Machinery. Electronics. Electrical engineering. Chemical and Petrochemical. Medical/Biomedical. Aerospace. Equipment for the food industry. Home appliances. Construction. And many, many others...

#### Benefit for customers

Additional high quality stainless precision strip producer.

---

### EFF Edelstahl - Flanschen und Fittings

Handelsgesellschaft mbH

AT – Klagenfurt

PAV F 014B

### Stainless steel flanges

Production and trade in special stainless steel flanges up to the outer diameter of 1,800 mm and thickness of approx. 100 mm.

#### Application range

The entire range of production of stainless steel products / building of pipelines / production of devices / ship building / production of automobiles, etc.

### **Benefit for customers**

Production is possible from 1 piece. Wide range of materials. All parts are WAZ EN10204/3.1 or 3.2 TÜV certified, extremely short delivery times.

---

### **ETZ Edelstahl-Technik Zechner**

AT – Klagenfurt

PAV F 014B

### **Stainless steel fasteners**

Sale of stainless steel fastening elements of all kinds, such as screws (incl. special screws), threaded and weld-on fittings, ropes, chains, railing systems and surface finish including pickle materials.

### **Application range**

Throughout the entire range of production of stainless steel equipment.

### **Benefit for customers**

A complete line of standardised and special stainless steel parts from one flexible hand.

---

### **EuroBrücke GmbH**

DE – Berlin

PAV F 005C

### **Stainless steel flanges**

Stainless steel flanges, special flanges and fittings.

### **Application range**

In the production of equipment and pipelines, chemical industry, ship building, building of wind power plants, food-processing, etc.

### **Benefit for customers**

A standard line of stainless steel flanges delivered from stock.

---

### **FeNiXS Steel NV**

BE – Antwerpen

PAV F 033A

### **Stainless Steel Flat Products**

Dealing in non-prime stainless steel flat products (Excess prime and second choice) ex European mills and service centers. We keep an extensive stock of most common grades (Austenitic-Ferritic-Martensitic).

### **Application range**

Our products can be used in most general applications (domestic appliances, architectural, transport, automotive, kitchen appliances).

### **Benefit for customers**

- excellent price/quality relation
  - fast delivery ex stock
  - personalized customer service.
- 

### **GOOD LUCK ENGINEERING Co.**

IN – Ghaziabad

PAV F 021B

### **Stainless Steel PSQ Bars**

Precision Shaft Quality (PSQ) Bars also known as Pump Shaft Quality or Precision Shaft Bars.

### **Application range**

- Pumps, Valves, Actuators, Instrumentation
- Loadcells
- Medical Instruments
- Marine
- Mining.

### **Benefit for customers**

- Improved Machinability
- Suitable for direct use in end application
- Customized based on end application requirements
- Available in Austenitic, Martensitic, Ferritic, PH & Duplex Grades.

### **Forgings & Flanges**

In Stainless, Carbon & Alloy Steel.

### **Application range**

- Pumps, Chemical & Pharmaceutical
- Oil & Gas
- Marine & Mining
- Dairy Industries.

### **Benefit for customers**

- Customization of Products & ready to use
  - Available in more than 30 grades.
-

### KEB Kärntner Edelstahlbeizerei

AT

PAV F 014B

#### Customized stainless steel pickling plant

Customized pickling plant for parts and equipment of all kinds of stainless steel.

#### Application range

Spray and dip pickling technology up to 6,000 x 1,800 x 1,500 mm.

#### Benefit for customers

Optimum cleaned, pickled and passivated stainless steel equipment parts as optimum corrosion protection.

---

### LINSINGER MASCHINENBAU GmbH

AT – Steyrermühl

PAV F 018C2

#### Sawing- and Milling Machines for Tube and Pipe Industry

- **Large Pipes**
  - **Plate Edge Milling Machines** for welding edge preparation
  - **Pipe Beveling Machines** for pipe end beveling on both ends simultaneously [up to tube  $\check{R}$  120"]
- **Spiral Pipes**
  - **Strip Edge Milling Machines** for steel for spiral tube lines (coil up to 2800mm width, 1" sheet thickness)
- **ERW-Lines**
  - **Strip Edge Milling Machines** (description above) for longitudinal seam tubes (HF-lines up to 28")
  - **Multi-Cut, Tube Cut-Off Machines** for longitudinal edge tube lines [up to tube  $\check{R}$  610mm – ERW-lines]
- **Seamless Pipes**
  - **Carbide Circular Sawing Lines** for steel billets [up to  $\check{R}$  1060mm], single tubes [up to  $\check{R}$  1060mm], multiple tube layers [up to 2000mm width]
- **Forging Mills**
  - **Carbide Circular Sawing Lines** for steel billets [up to  $\check{R}$  1060mm]

**Tool-Pool:** LINSINGER produces the necessary carbide saw blades, disc miller LINCUT and miller only for Linsinger machines. LINSINGER also offers a full re-sharpening and repair service.

To be at the forefront in developing of machines and lines, the high availability and the excellent service are noteworthy advantageous to our customers.

### **N+F Handelsges. mbH Flansche**

DE

#### **Flanges, forgings and fittings**

Carbon, alloy and stainless steel flanges.

#### **Application range**

EN flanges made of the following materials: P250GH, P355QH1, 16Mo3, 13CrMo4-5 and stainless steel: 1.4301/7, 1.4541, 1.4404, 1.4571; flanges ASME A105/ A350 LF2, P355QH1, F316L & F316Ti.

We keep regular stock of 5,500 tonnes up to DN1600.

#### **Benefit for customers**

Semi-products, flanges to drawings, short delivery periods.

---

### **NIRO STEEL d.o.o.**

SI – Jesenice

PAV F 014B

#### **Stainless steel flanges and turned/milled parts**

Stainless steel flanges and tube plates, parts of casings for the production of machines and devices, and plasma cut parts of thickness 8 - 50 mm.

#### **Application range**

Throughout the entire range of production of equipment / devices / stainless steel pipelines, etc.

#### **Benefit for customers**

20 years of experience in the production of special stainless steel flanges with the best workshop contacts for sheets.

---

### **Ravani Acciai s.p.a.**

IT – Ferrara

PAV F 018B

#### **Stainless steel flat products**

Cut to length and surface processing of coils and sheets AISI 304, AISI 316L, AISI 430, AISI 409.

#### **Application range**

Kitchen cutlery, architectural finishing, slaughterhouses, brewery, cans, food industry, pharmaceutical industry, tanks for liquids, heat exchanger, devices for contamination control, smoke conductors, industrial autoclaves.

### **Benefit for customers**

The most important proprieties are:

- High resistance to the corrosion
  - Easy cleaning operation, pliability and weldability
  - Un-magnetisable (only for AISI 304 and 316L).
- 

### **S.C. OTELINOX S.A.**

RO – Targoviste

PAV F 001B3

### **Stainless Steel**

Cold rolled flat products - sheets, strips.

### **Application range**

Automotive, Electronics/Metal Forming, Building Industry, Chemical/Energy.

### **Benefit for customers**

Strict quality control, quick response, flexible delivery, service oriented.

---

### **Starofit Klose GmbH & Co. KG**

DE – Ganderkesee

PAV F 016B

### **Seamless pipe bends**

Seamless pipe bends and fittings in 304H grade.

### **Benefit for customers**

Size 1/2"-8" right from the stock! No long delivery times from new production.

---

### **Steel & Metal Trading & Consulting GmbH**

AT - Judendorf – Strassengel

PAV F 007C

### **Stainless steel products, carbon steel products**

### **Application range**

As the mill and trade representative of Oiki Acciai Inossidabili SpA, S.I.P.I. SpA, Tecnofondi SpA and Czech Republic and Slovakia.

---

### **SUNRISE STAINLESS PVT. LTD**

IN - Ahmedabad, Gujarat

PAV F 010D

#### **Stainless steel welded round pipes & tubes, squares, rectangulars & strip coils**

Specification: ASTM /ASME/EN STANDARD, ASTM A-554, A-312, A-249, A-269, A-270, EN-10296-2, EN-10217-7 finish (mill finish, hairline, brush, mirror, annealed & pickled).

#### **Application range**

Oil & gas industry, furniture, sugar industry, pulp & paper, heat exchanger, construction, line piping, chemical & pharma industry, exhausts.

#### **Benefit for customers**

High quality product with quick lead time and wide range at single stop.

---

### **VATRANS ZLÍN, v.o.s.**

CZ – Zlín

PAV F 033C

#### **Stainless steel pressure pipe**

Stainless steel pressure pipe, laser welded.

#### **Application range**

Power engineering – heat exchangers.

#### **Benefit for customers**

Weld tightness ensured by pressure tests.

#### **Pipe in coil**

Laser welded pipe in coil.

#### **Application range**

Automotive industry.

#### **Benefit for customers**

Waste-free processing of stainless pipes.

#### **Brushed pipe**

Laser-welded stainless steel pipe with brush surface finish.

#### **Application range**

All areas.

#### **Benefit for customers**

Further processing, surface finish of the pipe.

*Situation as of 19th April, 2013.*
