

Kamil Bojanovský

KENYO, spol. s r. o.

“We come here every year and we try to show our Czech customers the best the brands that we represent have to offer. As importers and distributors, we are satisfied with the attendance and the contracts we arranged, as almost all of our business partners from Czech Republic and Slovakia were present.”

Zora Machová

CEO of the company FOR BABY, spol. s r. o.

“We returned to the trade fair in Brno three years ago with the goal of introducing new brands of baby-carriages that we import to the Czech market. Here, we can present them as a compact collection, which is crucial. This year, both the traders and the end consumers really liked what we had to offer: for example, the Lithuanian brand Tutis was a major success with its fantastic value for money. We are pleased with the trade fair as a whole and are glad to have been here.”

Martina Tregler

co-owner of the company BeeMy

“Most people come here because of the baby-carriages, and it shows in the demand for our textile goods. We approach traders as well, but primarily, we exhibit for the visitors, who can buy our goods right here at our stand. All things considered, we are satisfied with the attendance.”

Jaroslav Makyča

Consultant of the company Ori-flame

“I like Woman’s World, many people come here and they are exactly the customers that we are aiming at with our work. We do not sell here, but instead we present the cosmetic brand Oriflame and offer discounts, while the customer can choose to have our professional make-up artist take care of her. Overall, I am pleased, new people have signed up into the Oriflame Club and we have contacted many of those who are interested in our cosmetics.”

Lada Vyvialová

sFashion Designer, LADA fashion

“We are here to attract end customers and grow our clientele, but at the same time to contact traders dealing with pregnancy and maternity products. To us, Woman’s World is mostly an advertising endeavor, but we have had success in selling, too.”
