DIGITAL FACTORY

HALL A1

DIGITAL FACTORY 2.0 PROJECT

Special exhibition will be built in Hall A1 to concentrate information and solutions focusing on the digital future. These solutions will be based on deep digital transformation and artificial intelligence towards higher efficiency and quality of manufacturing. Visitors will learn the principles of advanced manufacturing digitisation as well as individual products, tools and solutions through presentations of exhibitors. The exhibition will include an action stage designed for lectures, presentations, round tables and discussions.

DIGITAL PATH

Digital Path will also be created by means of thematic islands, which will guide visitors based on their specific interests through specific phenomena such as artificial intelligence, blockchain, intelligent robotics and mechatronics, electromobility, crypto-security or new forms of education. The Digital Path will also show possible options of further development.

DIGITAL FACTORY 2.0 – CZECH REPUBLIC AS AN INDUSTRIAL SUPERPOWER?

Another key point of the Digital Factory 2.0 project will be Lounge E2 in Hall E, where a conference of the same name will take place on Wednesday 9 October 2019. The future of Czech industry in the digital era and the second wave of Industry 4.0 will be discussed as a chance for the Czech economy. Other topics discussed will include electromobility and autonomous vehicles, artificial intelligence in business processes, cyberphysical systems to increase production efficiency or blockchain and its use in industry. Keynote speakers will present specific practical life examples.

Czech National Exposition The Country For The Future, Hall Z

The Czech Republic newly presents its economic potential under the brand "Czech Republic: The Country for the Future". Thirteen state institutions: Ministry of Industry and Trade of the Czech Republic, Ministry of Foreign Affairs of the Czech Republic, Ministry of Defence of the Czech Republic, Agency for Enterprise and Innovation, CzechInvest, CzechTrade, Czech Export Bank, Czech Development Agency, Czech-Moravian Guarantee and Development Bank, Export Guarantee and Insurance Company, Technology Agency of the Czech Republic, Industrial Property Office and Engineering Test Institute. They will help people interested in their services with a range of tools at each stage of their business – from an innovative idea via its implementation to export of technologies abroad. Consultations by professionals from individual agencies will be complemented by the supporting programme of the exhibition with a number of specialized seminars.

CZECH ASSOCIATION OF ENERGY SECTOR EMPLOYERS

Official Cars MSV

MAIN FIELDS OF THE MSV 2019

MINING, METALLURGICAL, CERAMIC AND GLASS ENGINEERING

Machines and equipment for geological prospecting • Machines and equipment for open cast mines and pits • Machines working and processing raw minerals • Equipment for metallurgical plants, steel works, rolling mills and for manufacturing ferrous and non-ferrous metals • Machines and equipment for the ceramic and glass industries

Hall V

MATERIALS AND COMPONENTS FOR MECHANICAL ENGINEERING

Metallurgical semi-products, forgings, pressings, work pieces • Connecting materials, fittings, products of wire • Steel and tube structures • Apparatuses, vessels, tanks • Glass and technical ceramic products, carbon components • Seals, bearings • Gears, clutches, brakes, lubricating technology • Rapid Prototyping

Halls B, F, V

DRIVES, HYDRAULICS, PNEUMATICS, COOLING TECHNOLOGY, AIR-CONDITIONING

Electric and mechanical drives, linear moving units • Compressors, vacuum pumps, pneumatic elements, airconditioning equipment • Cooling and freezing equipment • Hydraulic elements and systems • Fittings, pipelines, pumps

Halls F, V

POWER ENGINEERING, HEAVY-CURRENT ELECTRICAL ENGINEERING

Primary sources for power engineering • Industrial boilers and their accessories, heating equipment • Motors, cogeneration units • Turbines • Nuclear power engineering • Power plants • Cables and conductors • Electrotechnical insulators and insulants • Power capacitors, accumulators • Electric light supplies • Transducers, rectifiers and other electrotechnical elements • Uninterruptible power supplies • Switchboards, Transformers • Electric HV and VHV instruments • Electric motors, rotary current supplies • Electric industrial heating • Electric drives • Information technology

Hall Z

ELECTRONICS, AUTOMATION, MEASURING TECHNOLOGY

Electronic components, elements and assemblies • Control, automation and regulation technology • IT, system integration • Measuring and laboratory technology • Studio and broadcasting technology • Machinery and equipment for electrical engineering
Halls C, F, V, Z

RESEARCH, DEVELOPMENT, TRANSFER OF TECHNOLOGIES, FINANCIAL AND OTHER SERVICES

Science and research • Financial services • Standards, certificates, tests, design • Marketing, advertising and promotional services • Literature, technical information, institutions • Industrial real estates and localities, regional development
Hall Z

METAL-WORKING AND FORMING MACHINES, TOOLS

Metal-working and forming machines • Machines for unconventional and special machining and forming technologies • Quality control in metal-working and forming sector • Flexible manufacturing systems (FMS) • Precision tools • Accessories for metal-working and forming • Service and repairs • Hand-operated tools • Measuring and checking instruments for machining and forming • Offer of production capacities in the metal-working and forming sector • Research, services, institutions
Halls B, F, G2, P, V

FOUNDRY INDUSTRY

Foundry equipment – design, construction, production and engineering • Melting plant equipment, refractories • Metallic charge materials, chemical foundry products • Patterns, core boxes, permanent moulds, moulds and accessories • Aids and auxiliary materials for moulding halls and core rooms • Casting machinery, equipment and accessories • Robots, manipulators and accessories for the foundry industry • Castings • Scrap and machines for scrap processing • Research, services, education and institutions in the field of the foundry industry
Hall V

WELDING

Flame welding, surfacing and oxygen cutting machinery and equipment • Arc-welding, surfacing and cutting machinery and equipment • Thermal spray machinery and equipment • Resistance welding machinery and equipment • Machinery and equipment for pressure welding • Machinery and equipment for other methods of welding, cutting and soldering • Additional and auxiliary materials • Robots, manipulators and accessories for welding technologies • Metal bonding machines • Welded structures, sub supplies of welded parts • Research, services, and institutions in the field of welding, cutting, soldering and bonding of metals
Hall G2

SURFACE TECHNOLOGY

Machinery and equipment for cleaning and treatment of surfaces • Electroplating equipment and accessories • Lacquering systems, enamelling systems, plastic coating systems • Equipment for chemical and heat metal treatment • Laser and plasma coating technologies • Equipment for thermal spraying • Special systems for surface treatment • Coating materials, putties, thinners, solvents • Robots, manipulators and accessories for surface treatment • Computer, testing and measuring technology • Offer of production capacities in surface treatment sector • Research, services, institutions in surface treatment sector

Hall E

PLASTICS, RUBBER, COMPOSITES

Polymers – raw materials and auxiliaries • Machines and equipment for plastics and rubber processing • Moulds, tools and jigs • Composite materials • Semi-finished and finished plastic and rubber-based products • Machines and equipment for recycling and use of plastic and rubber waste materials • Computer, testing and measuring technologies for plastics and rubbers • Research, services and institutions in plastics and rubbers

Halls G1, V

CHEMICALS FOR ENGINEERING

Machines and accessories for the chemical industry • Lubricants, oils • Coating compositions • Adhesives • Adhesive tapes and films

Halls G1, F, V

DIGITAL FACTORY 2.0 AND INDUSTRY 4.0 – INTEGRATED PROCESSES AND IT SOLUTIONS

Systems for additive manufacturing • Basic software and software solutions • Cloud & industrial IT services, digital factory services • Internet systems for the industry and industrial automation • Automated production systems usable for the smart factory

Hall A1

TRANSPORT AND LOGISTICS

9th International Fair for Transport and Logistics

COMPREHENSIVE SYSTEM SOLUTIONS IN TRANSPORT AND LOGISTICS

Ships, rail vehicles, airplanes • Cranes, lifting equipment, lifts • Transport trucks, transport equipment • Handling equipment • Packages, industrial packaging machines • Storing technology • Telematics, communication and information systems • Assembly machines and equipment • Services by carrier

Hall A2

115 exhibiting companies from **11** countries
28% from abroad

ENVITECH

International Fair for Environmental Protection Technologies

CIRCULAR ECONOMY

MAIN FIELDS

Circular economy • Airconditioning equipment • Pumping stations • Chemical and physical water treatment • Technology for sewage water treatment plants • Chemical and physical purification of sewage waters • Sewage water treatment plants • Waste processing and utilization • Soil and landscape protection • Environmentfriendly technologies for industry • Removal of old environmental burden • Instrumentation for environment control • Machines for industrial cleaning and washing • Research, services, literature, environmental organizations

Hall V

44 exhibiting companies from **5** countries
50% from abroad

BRNO FAIR CITY

DISCOVER THE BENEFITS OF BRNO FAIR CITY

Once again this year, the company BVV Trade Fairs Brno has prepared in cooperation with the city of Brno the BRNO FAIR CITY programme, which aims to make your stay at the MSV International Engineering Fair even more pleasurable.

You can travel cheaply using a special fair ticket from the Brno Public Transport Company. Enjoy free welcome drinks, menu deals or various discount schemes prepared for you by select gastronomy venues, have fun in bars. Set off for local craft beer sampling in the original ambiance of the Kryt 10-Z – a former air raid shelter, or for trips around Brno and the surrounding areas. A full list of benefits that the partners of the programme have prepared for you can be found in a printed guide, on the website **brnofaircity.cz** or in a mobile app **BVV Trade Fairs**, which is available both for Android and iOS.

To claim your benefits, you will need a silicone bracelet, which identifies participants of the fair. The bracelet can be easily obtained at the BRNO FAIR CITY infopoint during the fair upon presenting a valid ticket to the MSV International Engineering Fair 2019.
