What people said about the fair

CARAVANING
BRNO

Jan Vávra

TOPTRADE

We registered the largest number of visitors on Thursday and Friday, when Caravaning started. These were mainly trade visitors. On the following days, the interest from general public increased again. Overall, we rate the fair as successful and certainly will not miss it next year.

Milan Mühlberger

KaravanTravel.cz

Looking back at the latest Caravaning Brno, we can say that again fans of caravaning, both traditional and brand new ones. From our point of view, we can say that this year has fully met our expectations and we

wish our colleagues good luck in the upcoming season and look forward to our next meeting in Brno.

Rudolf Kučera

Camping World Neugebauer

We are very satisfied with our stand and facilities at Caravaning Brno. We rate the exposition as number one. We experienced the highest influx of visitors on the first days. We even managed to sell three models at the fair, which we see as a success.

Jiří Mayer

RAkar / MegaMobil CZ

This year, we are in Brno for the first time and now I already can say that

we are absolutely satisfied. We have had great results here and we have sold literally all models on display. They were also very forthcoming to us in Brno concerning the stand. It is simply all as I imagined.

Václav Harmáček

HvCaravans

We are happy with Caravaning. On the first days, trade visitors were coming in, knowing exactly what they wanted. We were happy to provide them with our services and show them everything from the wheels to the roof. We also man-

BVV

Brno

aged to sell several models at the fair. We therefore rate it as successful.

Sabina Kvášová

Žena v autě [Woman in the Car]

I would say that compared to the previous 4 years when we participated in Caravaning, we were surprised on Thursday, when we had one half more visitors at the stand than last year. We are satisfied. We really appreciate the people who came here and showed their interest. It's a very specific and committed public, and we like it a lot.

Roman Sochor

RINEN

We are most interested in van housing conversions. At the beginning of the fair there were many visitors and we have already sold some cars. People come to us who want to get to know the world and move around. They also like to search for news from us.

Petr Tesner

Caravan centrum Pardubice

We noticed the biggest interest in smaller caravans, for 4 people, especially our Vanu V 132 line, where the price is irresistible. Most visitors came in certainly on Saturday, when

people literally queued for caravans, so we might reap some harvest from Saturday. We are satisfied.

Jakub Loskot

Adria karavany Sedlčany

We rate this year's expo very positively in terms of the number of contracts, reactions to our stand and to Adria products. I have to emphasize mainly the Color XL line of family cars, meaning alcoves and semi-integrated Matrix vehicles; very successful was the Twin Supreme 640 SGX camper van with patented Sky-roof, bathroom with swivel wall fea-

ture and electrically-operated rear bed was also very successful.

David Pavlíček

Mercedes-Benz Vans

Satisfaction was great because we are enjoying great popularity with visitors. The greatest interest was in the delivery of Marco Polo with kitchen unit and Sprinter with extension, which we prepared for Richard Gassperoti. These are the two models that lured visitors most.

Sebastian Strasser

Frankana Freiko (Germany)

The fair was pretty good, we have

many people here. We have been exhibiting here for 16 years now and every year is just worth it. It is really great for us and it is important that we are here at the show. We present our own products to customers and dealers.

Jan Myslil

JM trade / Camping city

It is hard to judge, there are a lot of people just taking a look at everything, but there are also those who are interested in something. A number of people asked about specific things and it is obvious that they know something about it. The interest in camper vans was quite

great, and traditionally there is a great interest in Pilote.

Jaroslav Nikodém

Caravan Metropol

The biggest interest was in vehicles built on new Mercedes chassis. With the HYMER brand, Mercedes has a new front-wheel drive, gaining an extended rear axle and a number of advantages that only Fiat has ever had so far. The design of the cab is new, more like a passenger car, and the nine-speed automatic transmission really makes it even more comfortable to drive.
