

SECTORS

1 Weapons and ammunition

- 1.1 Missiles and rockets
- 1.2 Guns, mortars and ammunition
- 1.3 Rocket launchers and grenades
- 1.4 Mines, obstacles and mines clearance devices
- 1.5 Fire control equipment
- 1.6 Small-bore weapons and ammunition, sports and hunting firearms
- 1.7 Signalling and illuminating devices
- 1.8 Weapons and ammunition components
- 1.9 Weapons and ammunition accessories
- 1.99 Weapons and ammunition – other

2 Main battle tanks, vehicles and means of transport

- 2.1 Main battle tanks
- 2.2 Armoured vehicles
- 2.3 Special vehicles
- 2.4 Engineering vehicles
- 2.5 Road and terrain vehicles and motorcycles
- 2.6 Motor boats and hovercrafts
- 2.7 Subgroups and accessories of tanks and vehicles
- 2.8 Camouflage means
- 2.99 Main battle tanks and vehicles – other

3 Aircraft

- 3.1 Airplanes
- 3.2 Helicopters
- 3.3 UAV
- 3.4 Board control equipment
- 3.5 Electric equipment of aircraft
- 3.6 Aircraft equipment and armament
- 3.7 Aircraft engines
- 3.8 Aircraft installation
- 3.9 Life saving means
- 3.10 Air traffic control
- 3.99 Aircraft technology – other

4 Command and communication systems

- 4.1 Automatic systems of command and control
- 4.2 Optical and electromagnetic transmitting systems
- 4.3 Information gathering and detection equipment
- 4.4 Systems for reconnaissance of inaccessible areas
- 4.5 Topographic devices and services
- 4.6 Generating sets and power supply systems, batteries and accumulators
- 4.99 Command and communication systems – other

5 Security technology services

- 5.1 Mechanical means of security
- 5.2 Electronic means of security
- 5.3 Means of mobile security
- 5.4 Security technology and services
- 5.5 Highway police technical means
- 5.6 Criminological and expert technology
- 5.99 Security means – other

6 Observation and marking equipment

- 6.1 Night-vision equipment
- 6.2 Optic aiming systems and target marking
- 6.3 Hidden observation equipment
- 6.4 State border defence equipment
- 6.5 Security building entrances
- 6.99 Observation and marking equipment – other

7 Maintenance and repairs of technology, material supplies

- 7.1 Means and technology for repairs
- 7.2 Maintenance and diagnostics means
- 7.3 Handling, supplying, packing means
- 7.4 Storage means
- 7.99 Maintenance and repairs technology – other

8 Military and police professional training

- 8.1 System of education
- 8.2 Equipment supporting education and training
- 8.3 Simulator devices and evaluation systems
- 8.4 Training devices
- 8.5 Gunnery, driving and tactical simulators
- 8.6 Crisis management operation
- 8.7 Training simulators
- 8.8 Equipment of anti-terrorist groups
- 8.99 Means for military and police professional training – other

9 Personal security and protection

- 9.1 Means for healthcare
- 9.2 Means for providing foods
- 9.3 Clothing-Textiles
- 9.4 Camp accommodation
- 9.5 Chemical, biological and radiological protection
- 9.6 Pyrotechnical equipment
- 9.7 Diving equipment
- 9.99 Personal security and protection – other

10 Radars and radio technical systems

- 10.1 Active radiolocation
- 10.2 Passive radiolocation
- 10.3 Radio-technical survey and warning devices and systems
- 10.4 Survey, monitoring and warning navigational systems
- 10.5 Radar centres
- 10.6 Jamming devices and systems
- 10.7 Deceptive devices
- 10.8 Antenna systems
- 10.9 Radio-technical receivers and transmitters
- 10.10 Navigational receivers and transmitters
- 10.11 Components and parts of radars and radio-technical systems
- 10.12 Meteorological support of location and navigation systems
- 10.99 Radars and radio-technical systems – other

11 C4I2 systems

- 11.1 Data and information recording and processing
- 11.2 Communication network for data transmission
- 11.3 Communication means of control and navigation
- 11.4 Radio relay devices for stationary and mobile telecommunication networks
- 11.5 Satellite communication
- 11.6 GPS means and systems
- 11.7 IT for systems of command and control
- 11.8 Map interactive systems
- 11.99 C4I2 systems – other

12 Information security and data protection

- 12.1 Information security technological means
- 12.2 Information security by coding
- 12.3 Means of monitoring security situation in computer networks
- 12.4 Information security technological means – other
- 12.5 Physical means of information's protection, EMC, PEV means, over voltage protection
- 12.6 Legal and organisational aspects of information security and protection
- 12.99 Information security systems – other

13 Logistics and service

- 13.1 HW and SW for logistics
- 13.2 Repair and service centres
- 13.3 Workshops, tools, technical equipment
- 13.4 Metrological centres, measuring instruments
- 13.5 Elements and components of electronic devices
- 13.99 Logistics and service – other

14 Miscellaneous

- 14.1 Specialised books, publications and publishers
- 14.2 Trade and intermediary activity
- 14.3 State and economic institutions
- 14.4 Associations and unions
- 14.5 Office technology
- 14.99 Other

15 Components, sub-supplies, industrial cooperation

- 15.1 Components
- 15.2 Sub-supplies
- 15.3 Industrial cooperation
