Dear exhibitors,

We would like to draw your attention to the most important information and rules valid during the build-up period, the course of the fairs, as well as the dismantling period. To ensure you have a smooth and trouble-free operation in all the three stages we ask you to study in detail the General Conditions for Participation which are given on the reverse of the application form which you have signed and therefore undertaken to respect.

GENERAL RULES

- **Vehicles enter the Exhibition Centre in the course of build-up and dismantling through Gate 4. In the course of the fairs entry through Gates 4 and 9.**
 - **Drivers are obliged to observe the orders of the guard service.**
 - **All vehicles must observe the traffic signs on the premises of the Exhibition Centre (in particular the prohibitions on parking on signposted areas and in front of entrances to exhibition halls) and leave the premises by the daily closing time given in these organizational instructions. Parking of trailers in the Exhibition Centre after the closing time is not permitted and is subject to a fine of 5,000 CZK. Overnight parking in the Exhibition Centre is not permitted. The entry of vehicles into halls is prohibited. Entry of vans and trucks to the Exhibition Centre is not permitted in the course of the fair.**
 - We would like to draw your attention to the ongoing construction work on the premises BVV Trade Fairs Brno.
 - **If the rules for parking and the entry of vehicles to the Exhibition Centre given above are violated, the company BVV Trade Fairs Brno is entitled to tow away the vehicle in question to the reserved car park or fit the given vehicle with a wheel clamp. In such cases, BVV Trade Fairs Brno is likewise entitled to demand the payment of all costs associated with the application of these measures and a contractual penalty of 5,000 CZK in addition.**
 - On the exit of vehicles from the Exhibition Centre vehicles may enter the Exhibition Centre as given in these **Instructions – see DISMANTLING. On the exit of vehicles from the Exhibition Centre, a copy of the list of items declared and confirmed by the inspection service officer on entry to the Exhibition Centre must be submitted at the gate. At the request of the security guard the driver is, in the interests of protecting the property of BVV Trade Fairs Brno and other exhibitors, obliged to allow the luggage compartment of his vehicle to be inspected.** In case that the security guard finds items marked as property of BVV Trade Fairs Brno in a vehicle departing from the Exhibition Centre, and those have not been included in the list of items declared and confirmed by the inspection service officer when entering the Exhibition Centre, such material will be confiscated by the security guard. This also applies to exhibits and materials taken out through the gates of the Exhibition Centre.
 - **Emergency exit routes must remain clear.** For safety reasons assembled and dismantled materials, packaging and exhibits must not block aisles between exhibition stands. Assembly work only may be performed in the exhibition halls. Production of assembly elements, work on stands requiring significant amounts of painting, creation of dust and other work that may otherwise cause inconvenience to other exhibitors is prohibited in the exhibition halls. Any violation of this regulation will be subject to a financial penalty.
 - We recommend to **insure exhibits** (including packaging) against damage or loss (see Services) and **also individual exhibition stand security** (see Services). BVV Trade Fairs Brno will not be held liable for any such damage.
 - **Waste disposal.** Color-coded containers for sorted waste located by individual exhibition halls serve primarily for the disposal of waste generated during the build-up and dismantling of exhibition stands. You can obtain more information at the gatehouse of the exhibition hall. An appropriate container will be arranged by the hall manager at your request for the disposal of large quantities of sorted waste (glass, paper, plastics and wood). The costs of waste associated with the construction, operation and dismantling of exhibition stands are covered by a one-off technical fee charged to all exhibitors at the uniform rate of 90 CZK/sqm of leased exhibition area.
 - **Disposal of metal chips, oil and lubricants.** Containers located in each hall serve for the disposal of metal chips and similar waste. Information is available at the gatehouse.
 - **Disposal of bio-waste.** Sanitation containers will be placed near the halls.
 - **Receptions, cocktail parties and company presentations** on exhibition stands may be held only during daily opening hours in the exhibition hall, i.e., till 7:00 pm. Upon prior request, this time can be extended for a fee, but no later than till 10:00 pm.
 - **The use of audio and video equipment for promotional purposes and music performances will only be permitted on 11–13 October 2023 after 3:00 pm, and at one's own stand only.** Permission can be granted only if nuisance is not caused to neighbouring stands, if alleys or roads are not blocked, and the noise level does not exceed 85 dB at the stand area perimeter in halls and 70 dB on open areas. BVV Trade Fairs Brno reserve the right to take adequate steps if these conditions are not observed, for instance to switch off power supply to the stand after a written warning. In that case the lessee shall not be entitled to any compensation for any damage the exhibitor may have suffered as a result of such an action. For music performances at stands, moreover, lessees must seek permission from BVV Trade Fairs Brno and from the appropriate collective copyright administrator (OSA, INTERGRAM) in the meaning of Copyright Act 121/2000 as amended.
 - **The placement of your own advertisements within the Exhibition Centre outside your own exhibition area is not permitted.** The mass distribution of printed advertisements or their dropping over the Exhibition Centre from airplanes or balloons is not permitted without the prior agreement of BVV Trade Fairs Brno. Flights with advertising banners over the Exhibition Centre are also not permitted. The broadcasting of advertisements within the Exhibition Centre using Bluetooth or BTS cell transmitters is likewise not permitted without the prior agreement of BVV Trade Fairs Brno. You are entitled to promote your products and services on your own exhibition stand only. Any extra tidying and cleaning costs incurred will be charged to the exhibitor in question. The use of means of advertising such as bicycles, skateboards, roller skates, scooters, two-wheeled handcars and other means of motion (e.g., jumping boots, stilts) at the Exhibition Centre is likewise not permitted without the prior agreement of the trade fair administration.
 - We recommend exhibitors to **hand keys from secured areas on their stand to the reception desk in their exhibition hall.** Should they not do so, in the event of a fire alert or an equipment failure in the locked area, they will be charged any costs associated with forced entry into the area in question.
 - **Cleaning on exhibition stands** outside opening hours may only be performed by cleaning companies contracted by BVV Trade Fairs Brno.
 - **No entry to the Exhibition Centre!** The entry of motorcycles, bicycles, scooters, segways or with in-line skates or skateboards in the course of the build-up and dismantling period and the course of the fair is prohibited.
