

WE OFFER AGAIN

You have seen and will see again!

At least 100x a day visitors to the Exhibition Centre can see a video spot of your company on a video screen located in a frequented place at the premises, of several tens of metres' visibility.

The novelty launched could be used by exhibitors as early as last year at some chosen fairs and proved very successful.

On a space of several square metres you can present your product by a quality picture and sound and, at the same time, invite visitors to your stand.

Extraordinarily advantageous price!

If you ordered your presentation for the whole time of the event, we will broadcast your 20 s spot at least 100x a day or 10 s spot at least 200x a day.

Its price will be 5,990 CZK/day.

- Another excellent method of presentation
- First-quality technology
- Video widescreen (16:9) dimension 5/3 m (w/h)
- Advantageous ratio of price to output
