EXHIBITION SPACE

BPM 2025

The 17th annual international creative and textile exhibition was held for the first time in the unique A1 pavilion at the Brno Exhibition Center. This is the fourth year of the exhibition in Brno, confirming its growing popularity.

During the exhibition, space was also dedicated to charitable projects: members of the Bohemia Patchwork Club donated 45 quilted pillowcases to clients of the Cesty životem bez bariér (Paths Through Life Without Barriers) club, and the First Moravian Patchwork Club sewed toys for child clients of the Kociánka Center in Brno and also for children at Safety Day - Rescuers for Children.

Wide selection of goods, presentation of new products

Exhibitors presented a wide selection of sewing machines and embroidery machines, overlock and coverlock machines, ironing equipment, fabrics, and accessories.

Quilt exhibition

Captured a cross-section of current textile creation and its main trends. The gallery from Brazil was a big attraction. The prestigious competitions V KRUHU, FOUR PATCH, ČESKÝ A ZAHRANIČNÍ QUILT, and HEDVÁBNÁ ZAHRAHA were also announced.

Workshops

Workshops with renowned foreign and Czech lecturers took place throughout the fair. Further demonstrations of textile techniques took place directly at the sales stands.

ECHOES:

We are satisfied, we like it very much, this pavilion is beautiful. I would say that there were quite a lot of customers. I am curious about next year.

Haišman s.r.o., Pavel Haišman, partner

We are very happy with the exhibition. We were better prepared this year, and in addition to scraps, we also had smaller pieces of fabric suitable for patchwork. We were also a partner in the competition, where it was really difficult to choose because one quilt was prettier than the next

Hedva Český Brokát, s.r.o., Miroslava Sochorová, head of the sales department

Many customers stopped by, even though we sell yarn and knitting needles, which is a different product range from the main focus of the exhibition. There was huge interest in our knitting and crochet materials. We are satisfied with the result; we reached a lot of new customers who did not know about us before.

Katrincola.cz (Miliimport spol.s.r.o), Kateřina Fantová, marketing manager

This is my first time at the fair, so I don't have anything to compare it to. We brought patchwork rulers and templates, and there was a lot of interest in them. We had the most visitors on Friday and Saturday.

LizaDecor Com Limited, Jana Zaoralová, managing director

We came from Slovenia, this is our first time here, and we are satisfied with the fair. And I don't think it will be our last time here.

MARYNA Studio, Maryna Bilash Puljić, owner

BPM impressed us with its very pleasant atmosphere and the number of people who visited it. People were very friendly; we exchanged valuable information and experiences. At our stand, we offered them high-quality knitted fabrics, sweatshirt fabric, and haberdashery. We were also surprised by how many people were from abroad, including as far away as Canada. Overall, we were satisfied and enjoyed it very much.

Notie s.r.o. (Mimi látky), David Chytil, managing director

This year's exhibition was really very nice; we really liked the space and natural light in the pavilion. Visitor interest was huge, even greater than last year, I think. We bring new fabrics from England, and we have something new every year, so everyone looks forward to seeing what we will have next time.

RAGOS, spol.s r.o., Dana Raselová, managing director and owner

The choice of pavilion is definitely a step towards a better and more representative solution for the trade fair. As far as visitors are concerned, we have noticed interest in nursing symbols, we have had plenty of relevant questions, and the exhibition will continue to be interesting for us in the years to come.

SOTEX GINETEX CZ, z.s., Ladislava Zaklová, CEO

We are satisfied, there were many customers, and there is huge interest in industrial sewing machines. It is clear that customers are evolving, using high-quality and heavier materials, and they need high-quality machines for this. It is also positive that there is interest in sewing and patchwork as such.

STRIMA CZECH s.r.o., Martin Zubatý, managing director

ECHOES:

We really enjoyed it here. This is our first time in Brno. We are Polish manufacturers exhibiting materials for the patchwork community. We love meeting people and learning about their needs and ideas for patchwork. That's why it's so inspiring for us to be here and to see that our products meet people's needs and expectations.

Tkanfarb Business Management sp. Z o.o. – sp. k., Amadeuz Wieteska, owner

This year's exhibition was much better than last year's, and I am very satisfied. There was a lot of interest, especially in designer fabrics. It is important to see fabrics and their colors under the right lighting, which these pavilion spaces provide perfectly.

VierMa by Deny, Denisa Pelikánová, owner

It was nice to meet all these people again, most of whom we know. This bright pavilion is very pleasant, and its large space gives the fair a beautiful dignity, which we greatly appreciate.

Šicí technika Brother s.r.o., Roman Brzuska, owner and managing director

I think the exhibition venue is magical. The light is beautiful, lots of people have come, and all the exhibits are great. People enjoy meeting each other, and this is the best way to bring together different people from different parts of the world. What's more, I've done some good shopping here.

Estela Mota, Brazilian quilter
