

BRNO EXHIBITION CENTRE / 4 - 6 / 6 / 2024 /
**URBIS / THE SMART
CITIES MEETUP**

EXPERT SIDE PROGRAM / DAY 1

13:00 / SMART ENERGY

Agora I (start-up), CZ/ENG, till 15:15

E-mobility in cities, charging stations, energy management, photovoltaics for cities and other topics. The session will be concluded by a panel discussion with experts on trends in smart energy solutions for municipalities.

Participating companies: E-platforma, Flowbox, Ft4u, ON Tech, Teplárny Brno, VDT Technology, Visionq

13:00 / INNOVATION COMPETITIONS IN CZECHIA: “CHYTRÁ MĚSTA” & “NAKOPNI PRAHU”

Agora II (national zone), CZ/ENG, till 14:30

Competitions as a tool to build a strong innovation ecosystem. Presentation of good practice from past editions and opportunities for involvement in the upcoming ones.

14:30 / OPPORTUNITIES FOR RENEWABLES IN THE RECONSTRUCTION OF UKRAINE

Agora II (national zone), ENG/UKR, till 16:30

Can urban solar projects be developed in wartime, and why would anyone do it? Why solar energy can play a key role in Ukraine's reconstruction efforts and how European companies, governments, donors and municipalities can contribute and support this crucial transition. Examine the Ukraine's potential to become a model for SMART solar cities. Through concrete solutions and successful case studies, we will reveal actionable strategies for harnessing the potential of renewable energy in the revitalization of Ukraine. We will discuss innovative approaches, policy implications and joint initiatives aimed at promoting a sustainable energy transition in Ukraine and beyond.

14:30 / FAST-TRACKING ENERGY INNOVATIONS IN BUILDINGS, DISTRICTS AND CITIES

Morava, ENG/CZ, till 17:00

Join us for a dynamic seminar exploring cutting-edge research and practical insights in the field of buildings, neighbourhoods, and urban systems. Delve into diverse approaches in positive energy districts (PED) and New European Bauhaus (NEB), gaining valuable knowledge. Witness a live demonstration with a digital city as we showcase the application of PED cookbooks in real-world urban planning.
