

BRNO EXHIBITION CENTRE / 4 - 6 / 6 / 2024 /  
**URBIS / THE SMART  
CITIES MEETUP**

**EXPERT SIDE PROGRAM / DAY 2**

## **ALL DAY / INDIVIDUAL TOURS OF THE OUTDOOR CLASSROOM ARCHIMEDES**

*Outdoor area of BVV Trade Fairs (by navigation), from 9:00 to 18:00*

### **9:30 / SPARCS ENERGY SOLUTIONS DAY SHOWCASE WORKSHOP**

*Morava, ENG/CZ, till 12:00*

For more than 4 years, the SPARCS project has been piloting over 40 groundbreaking innovations in energy, e-mobility and digital technologies. Dive into the experiences of our lighthouse cities Leipzig and Espoo and the insightful learning journey of our fellow cities. Join us for a glimpse into the future of technology and urban development!

### **10:00 / CITY LOGISTICS**

*Agora I (start-up), CZ/ENG, till 11:45*

Experiences of city logistics from abroad, the pilot project of city logistics and depot in Prague, solutions for city logistics: different approaches to cargo bikes, autonomous delivery of parcels, delivery to car trunks and other topics. The session will be concluded by a panel discussion with experts on trends in city logistics and their local application.

Featured companies: BringAuto (**outdoor demo**), City Commuters, Faculty of Transport of Jan Perner University in Pardubice, PowerBOX, PowerHUB, ŠKODA X (trunk delivery), UAV Alliance

### **10:00 / OPPORTUNITIES FOR RENEWABLES IN THE RECONSTRUCTION OF UKRAINE**

*Agora II (national zone), ENG/UKR, till 12:00*

Can urban solar projects be developed in wartime, and why would anyone do it? Why solar energy can play a key role in Ukraine's reconstruction efforts and how European companies, governments, donors and municipalities can contribute and support this crucial transition. Examine the Ukraine's potential to become a model for SMART solar cities. Through concrete solutions and successful case studies, we will reveal actionable strategies for harnessing the potential of renewable energy in the revitalization of Ukraine. We will discuss innovative approaches, policy implications and joint initiatives aimed at promoting a sustainable energy transition in Ukraine and beyond.

# URBIS / THE SMART CITIES MEETUP

BRNO EXHIBITION CENTRE / 4 - 6 / 6 / 2024 /

EXPERT SIDE PROGRAM / DAY 2

## 11:00 / MEETING WITH AUTHORS OF: "HOW TO NOT MAKE A STUPID SMART CITY"

*National Consulting Point, CZ, till 15:00*

Together with the Ministry of Regional Development, Jakub Slavík will be available for consultations as the main author of the publication along with co-authors Pavla Slavíková and Kateřina Totová. The Slavíks have been involved in the development of Smart Cities in Czechia since 2015. Visitors to the fair thus have a unique opportunity to talk with the authors not only about the publication itself, but also about Smart Cities in general and what practices are and what definitely are not worth replicating.

## 12:30 / DATA BRNO WORKSHOP

*Agora II (national zone), CZ/ENG, till 14:30*

How to start and manage data portals? What are the experiences of users and operators? Experienced operators of data portals, typical users and representatives of public administration will be looking for answers.

## 13:00 / SMART URBAN INFRASTRUCTURE

*Agora I (start-up), CZ/ENG, till 16:30*

Smart maps, traffic data for cities, intelligent urban technical networks, BIM, reservation systems for buildings, IoT networks and solutions, traffic management systems, bike parking, bike racks and other topics. The session will be concluded by a panel discussion with experts on trends in smart urban infrastructure.

Featured companies: Cominfo, Cyclomedia, HLF, IO Mobility, MDP Geo, Netlia, Roadtwin, Sensority, ŠKODA X (car data), Whatspot

## 13:00 / EXPLORING NEW PERSPECTIVES ON CITY PLANNING

*Morava, ENG/CZ, till 17:00*

*13:00 to 14:10 NEB Impact Model*

*14:20 to 15:30 Utrecht Barcode*

*15:40 to 16:50 Espoo Co-creation Toolkit*

Workshop focused on new perspectives of urban planning. We will get to know three innovative tools developed within the framework of the New European Bauhaus and based on its values. The workshop will help you to look at urban planning from a different point of view and not to miss any important step in planning and to invite relevant stakeholders to the table. You will meet people who solve similar questions as you and learn about inspiring projects from other cities.
